Subject: Proposed Development of a Water Rights Enforcement Policy

This is a message from the State Water Resources Control Board.

The State Water Resources Control Board, Division of Water Rights is proposing to develop a Water Rights Enforcement Policy. Today, the Division launched a [Proposed Water Rights Enforcement Policy](#) webpage to help inform the water community and engage stakeholders in development of the Policy. Water is a precious resource, and its availability and distribution varies from year to year. In light of increasing demand on our water resources and legislative mandates, the Water Right Enforcement Policy will help ensure water rights enforcement activities are fair and equitable.

Your feedback is important to us. If you wish to receive updates regarding stakeholder outreach and policy development, please subscribe to our email list on the [new webpage](#) or by checking the box for the 'Water Rights Proposed Enforcement Policy' email list in the 'Water Rights' dropdown menu on our [Email Subscription Form](#).

If you would like to contact the Enforcement Policy Development Team regarding the development of the Policy, email WREnforcementPolicy@waterboards.ca.gov or leave a voicemail at (916) 323-3642.

Thank you,

Enforcement Policy Development Team
